

Legend

- ★ Project Option 1 Turbines
- Project Option 2 Turbines

60 Km Extent

= = = = ROI - NI (UK) Border

Wind Farm Visibility

1.2% Visibility of Option 2 turbines only

72.6% Visibility of both Option 1 and Option 2 turbines

0.5% Visibility of Option 1 turbines only

22.2% of the entire study area to 60km will not have any view of the turbine blades of any of the proposed turbines

Note: This ZTV map has been generated with ESRI's ArcMap 10.3.1, with the Spatial Analyst/Viewshed tool, from a Digital Terrain Model (DTM), which represents an unrealistic bare-ground scenario that tends to over-represent visibility because it does not take account of screening by the likes of vegetation and built development.
